

## Handheld Devices Policy

Ladies' provides a relaxed and peaceful environment for Members and guests to play, learn, and enjoy golf and club facilities, free of the disturbance of ringing cellular devices and cell phone conversations. As such the use of cell phones and other such handheld devices are discouraged and under no circumstances should their use slow down play.

- Cell phone conversations may be held in the Clubhouse business centre, in locker rooms, and inside parked vehicles. They are encouraged to be carried on the course and used in a medical emergency. At all times they should be switched off or on vibrating mode.
- Discreet, non verbal (silent) communication e.g. text messaging, emails and scheduling is permissible in all areas of the Clubhouse and golf course, except in the indoor dining rooms.
- Laptop computers may be used in the business centre and locker rooms.

Members are responsible for ensuring guests know and follow Club policies. The Board will monitor adherence to this policy. Management and staff are required to enforce it.

Policy 5280

Approved by Board on July 27, 2010
